PICARELLO CASE TO BE ARGUED ON FRIDAY

In the Legislature

Further Delay Asked By Counsel In Rebuttal By Supreme Court

OTTAWA, March 7.—The Picarello and Lassandra cases were up before the supreme court this morning. A motion for delay in arguing the case was made because of insufficient time to prepare, but the court did not seem very much impressed by the plea, Justice Millington, in particular, intimating that counsel were simply trifling with the court. The matter was finally deferred until Friday when the parties will have to be ready to go on. The court will apparently not regard with any favor an adjournment until the May sittings.

—Calgary Herald.

On Monday last in the legislature, a motion introduced by Hon. J. E. Brewster, was unanimously agreed to, that the government should continue to urge upon the dominion government the necessity for the transference of its resources to the province.

The house also voted a resolution of confidence to L. Peterson, member for Taber, in the loss of his wife, who died in Edmonton on Sunday.

On Tuesday the house agreed unanimously to a motion by A. B. Claypool and N. S. Smith calling upon the dominion government for an investigation into fees charged by livestock exchanges in livestock yards, that proper trust accounts

RED ROSE COFFEE

For particular people

"How good it smells"—for it is packed fresh roasted, and the doubly sealed can preserves its rare aroma and flavor.

Take Down The Bars!

At Ottawa despatch appearing recently in the press says forth the striking fact that total immigration to Canada in December 1912, in comparison to Canadian decreased 27.5 per cent in comparison with the corresponding months of 1911. All classes of immigration were affected, British immigrants numbering 5,000 less, United States 6,000, and other countries 6,999, a total decline of 29,669.

The decline of four years after the war was compensated under the restrictive laws imposed on the country by reason of war and after-war conditions. If certain countries in Europe wish to act as if the war is still in progress, we in Canada can hardly prevent it, but surely in our own interests we should remain as much as possible in a position of neutrality in order to restore as far as possible the normal conditions and activities of our country.

Fortunately, evidence is not lacking that, whatever the leaders of organized labor unions may say or do, the masses of the Canadian people are awakening to the fact that in order to be bettered they must be more than victimized through their present virtual position of inactivity in Canada.

Nobility in his senses advocates the removal of all bars to immigration and a return to conditions which at one time prevailed. There must continue to be strict and absolute prohibition of the entry into Canada of the physically and mentally unfit, and the same should be done with regard to those professionally notorious on the communistic and "Red" groups. Canada offers no place for such, who could only be a source of weakness and of strength, terror and expensive liabilities and not national assets.

But the present policy of refusing to submit to a bar to immigration and a return to conditions which are to a certain extent as domestic as for immediate modification. Not only does the existing law practically shut us all others, but for years there has been a popular belief that Canada should continue its efforts in the molding of the two classes among people of the world, the rich and the poor, the learned and the ignorant, the highly educated and the uneducated, the well known fact that the number of available immigrants from the British Isles or the agricultural and domestic class is extremely limited. In other words, we are willing to accept what we cannot get and refuse to take good work in other walls of life.

The cost of living in Canada today is the high cost of production and marketing. There is little prospect of the selling price of agricultural products increasing to a figure sufficiently large to bear these heavy costs and yet leave a reasonable profit to the farmer. Between the cost of production and the selling price of the various classes of costs. How is such a heterogeneous to be brought about so long as the entire labor market is kept as a close preserve for organized labor, and the immigration policy is dictated by and limited to suit the labor leaders?

It is known that the cost of living in Canada today is materially reduced so long as our public service companies are compelled to grant unreasonable short hours pay unreasonably high wages, employ several men to do the work of which one is capable, and are largely precluded from recruiting new and efficient employees through the enforcement of apprenticeship laws. What can the cost of living be when the farmer, the mechanic, the laborer, the idler, and other necessities of the farmer be increased when the supply of common laborers are essential to the carrying on of any and all industry is completely shut off?

At the recent annual convention of the Saskatchewan Grain Growers' Association, Mr. W. C. Chipman, in regard to this subject, he urged selective immigration as necessary, but immigration selected to meet all the needs of Canada. Present economic conditions, Mr. Chipman pointed out, were the result of the war, which presented a situation which was not in accordance with the facts presented.

During that period of inflation we had enacted a law in the shape of railways, industries, public buildings and services, all on borrowed money, capable of taking care of a much larger population than Western Canada possessed.

The border is not great for the present small population. The increased plant should be worked to full capacity, and that desirable and necessary condition can only be brought about through increase in population, and that increase must be obtained through immigration.

The cost of living is now so high that it is to be expected with comparative and steady employment. Population is essential if there is to be a sufficiently large buying power to consume the products of labor. Yet present immigration laws have not one effect upon the supply of common laborers. The result is that the large number of foreign laborers, the sturdy, ambitious workers from other nations, who opportunities have limited or almost entirely withheld from the masses. These men and women came to Canada in the past glad to work, able to work and grateful for the opportunity which was offered them in the past and was prosperous. Their immigration now will assist in bringing about a reversal of business. Why then close the door to them?

Vancouver Grain Movement

Fifteen million bushels of grain is now the estimate for the Vancouver grain movement for the season 1912-13. To date Europe has taken 1,131,000 bushels, with 1,006,155 bushels yet to load. The Orient has taken 12,300 bushels, with 1,206,000 bushels yet to be despatched.

Owing to the low rate of postage—12 marks a letter 10 cent and 25 marks—henceforth—the German post office has a deficit of 120,000,000 marks.

Manslaughter In 2nd Degree

Using a razor—bad stuff—but many people do it for their pains. This one remedy is painless and safe. It does not irritate the skin, it does remove warts and corns, cleanse them right off. Relieve a substitute for "Parfum's" 2c everywhere.

U.S.A. Membership

The present membership of the United Farmers of Alberta is given in the official report just issued at 11,116, with about 1,000 in the women's organization.

Severe Kidney Trouble

Mrs. F. Rinehart, Campbellville, Ont., writes:

"I had trouble with my kidneys and very frequent urination. This was followed by pains which at times were very severe. The doctor said I had inflammation of the bladder and that an operation might be necessary. To this I refused, and began using Dr. Chase's Kidney-Liver Pills. From the first few doses I felt the benefit. The pains left, urination was corrected, and I have had no recurrence of these ailments."

Dr. Chase's Kidney-Liver Pills

One pill a dose. 25cts. a box. All dealers, or Edmanaco, Bates & Co., Ltd., Toronto.

WORLD HAPPENINGS BRIEFLY TOLD

Saskatchewan spent \$1,000,000 on roads last year and Ontario \$20,000,000.

Fire caused damage in British Columbia during 1912 amounting to \$2,865,756.

The British warship Curlew left Kingston, Jamaica, suddenly owing to a report of rioting in one of the West Indian colonies.

J. A. Westman, former prominent Regina business man, and at one time publisher of The Regina Daily Province, died recently at Vancouver after a long illness.

The Soviet Government has launched a nation-wide campaign to stamp out the corruption of public officials with threat of penalty of flagrant offenders.

Mrs. Ambrose Small filed in Surrogate Court a copy of a will made in 1903 by the late J. A. Small leaving his entire estate to her. Attached to that was an affidavit stating her belief that Small died December 2, 1912.

King Victor Emmanuel has set aside 1,000,000 lire from his private purse for enlargement of the building of the International Institute of Agriculture, which was constructed in 1906 at his expense.

A survey, which will take into consideration possibilities for future electrification of northern and western lines of the Canadian National Railways, will be undertaken at an early date, it is learned.

For Hiccups and Heartburn Here is a Good Prescription

Nothing brings such satisfactory relief as slowly slipping a few drops of "Nervilite" in sweetened water. This is a safe, non-irritating medicine that cures the hiccups just as it does sour risings, gas holding and fermentation in the stomach. For acute stomach pains, bloating, nausea, and similar complaints, take a few drops of "Nervilite," the true friend of every family. Sold by all dealers, 25c per bottle.

A decree published in Constantinople has inhibited the manufacture, sale and consumption of anabolic drinks.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds nothing can equal Bab's "Own Baby Liniment." It is a safe, non-irritating medicine that will keep the little one's stomach and bowels working regularly. It is a recognized fact that when the stomach and bowels are in good condition the health of the body is good and that the little one will be good and that he will thrive and be happy. The tablets are sold by medicine dealers in 25 cent boxes from the Dr. Williams Medicine Co., Brooklyn, N.Y.

Men, Money and Management

Lack of Wiss' Management Invariably Means Failure

In a recent address before thousands of railway employees, President H. Markham of the Illinois Central Railroad, broke away from the stereotyped phrase of "capital and labor" and referred to this phase of the Industrial world as "Men and money partners in the transportation business." The Financial Post says this is a great improvement over the usual form of expression and helps us to do some clear thinking on this subject.

Wise earnings and the money invested in any enterprise are, indeed, partners in that business, but as Commerical West points out, they are a third element which is necessary to insure success and that is, management. Lack of wise management means failure, even though plenty of money is available and workers most efficient. The manager may come from the so-called capitalist class, or he may work up from the ranks of the wage earner, and the latter could be much more efficient than the other. The manager, stated, speaking, is neither king nor capitalist. His strength is neither in his hands nor in his bank roll, but rather in his moral efficiency.

Time and patience will enable a person to overcome almost any obstacle.

Against New Fangled Ideas

Ontario Farmers Severely Criticize Motion Picture Shows

Provincial fair associations are discussing general improvements of rural fairs and the elimination of undesirable features in Ontario. More than a score of delegates from Peterborough and Middlesex counties, representing 15 of the leading agricultural societies of Ontario attended District No. 8 meeting and spoke in this strain.

Motion pictures have come in for strong criticism, especially voicing the opinion that movies had a greater adverse effect on children than many of the games of chance and shift which make the rounds of the Ontario fairs. A proposal was made the association to request Hon. Peter Smith, Provincial Treasurer, to place a heavier tax on movies.

"COLD IN THE HEAD"

is a acute attack of Neuralgia, characterized by frequent "cold in the head" and that the use of HALUS CATARH MEDICINE will stop the pain and render them less liable to cold. Reputed agents of Acute Catarrh may lead to serious trouble.

HALUS CATARH MEDICINE is a powerful stimulant to the circulation of the blood. On the Mucous surfaces of the System, due to the strong antiseptic and astringent Nature of the medicine.

C. B. POST, OWNER
J. W. PHILLIPSON, Auct.

Here and There

QUEBEC, Que.—The request made by Major Curley, Bowring, for the return of the small gun said to have been captured by the British on June 17, 1775, at the battle of Brest, which now stands in the square of the same name, has been referred to the Minister of Militia at Ottawa.

PORT ARTHUR.—An official announcement by the C. P. R. says—"At Port Arthur additional trackage will be provided to accommodate grain traffic to be sent to the terminal elevators at Current River."

KOBRA.—Six tons of Canadian commodities were sent to China by ship to Shanghai to be placed in the newly established Canadian sample salesrooms originated by Dr. J. W. Ross, Canadian Government Commissioner to China, Shanghai. The show rooms will be in charge of D. Sparks who has spent several years in China. Chinese representatives of the Canadian government are in the city and Dr. Ross states that Canada is more interested than ever in the upbuilding of trade with the Orient, and the opening of the sales rooms at Shanghai is a tangible indication of the efforts being made to accomplish that purpose.

ST. JOHN, N.B.—At the present rate of shipment of grain, the 20,000-ton mark may be attained this season. For the present season to date, and during the first 10 days of cereal carried by the C. P. R. elevators, compared with 4,576,235 bushels for the same period last season. The increase for the winter to March 10th is 4,228,102. Grain shipments on February 1st of this year had equalled the total to March 10th last year.

LETHBRIDGE.—C. C. Stubbard, D. G. for the C. P. R. has been transferred to Penticton, B. C., where he will occupy the same position on the Kettle Valley Railway, a branch of the Canadian Pacific, which has been recently completed by C. E. Legg, of Penticton. Mr. Legg will assume his new duties on June 1st. Coming to Legg from overseas August 1, 1920, Mr. Stubbard has been engaged of the city continuously since that time.

KINGSTON.—Prominent officials of the Canadian Pacific Railway were in the city in connection with local meetings connected with the rail service. E. J. Main, superintendent of the Trenton division, and Col. Ripley, division engineer, attended the new overbridge bridge on the new line entering the city and which is now in operation. The rails are being laid and soon the line of the Canadian National line, as well as those of the C. P. R., will be over them and a great source of danger will be removed by the diamond switch that has been in operation for so many years at heavy expense.

CALGARY.—Those who knew Grand Hall, Vice-President Canadian Pacific Railway, in the old days will recall his remarkable prowess as a hunter. Now he has little time for hunting expeditions he has by no means lost his skill in the field. While his train was passing through a small town in the Rockies, he noticed a coyote some fifty yards away. "Oldis you couldn't hit him with a bullet," said the conductor of the train. "Taluk," said the Vice-President. Bang went his gun and the coyote rolled over. "The Call of the West," remarked the Vice-President with a smile.

MEDICINE HAT.—Within the past year three local lumbermen of the Medicine Hat division, James Fisher, Tom Penhale and Harry Hardy, have been retired from active service of the Canadian Pacific Railway, having been driven from their posts in the pioneer days of road building, and in the later years have been promoted to passenger trainmen. Tom Penhale is the oldest in service with the company, having enlisted in 1881. He has taken an active civic part in the community and was alderman of the city for several years. "Jim" Fisher has spent fifty years of his life railroading, covering the entire continent, having driven over two million miles in the cab of a locomotive. He started as fireman on the Intercolonial, and joined the Canadian Pacific in 1891, having pulled a passenger train for the last thirty-six years. Harry Hardy hired with the company in 1887 at Broadview, and later worked on a construction engine on the Prince Albert road in 1890.

THE ATLAS LUMBER CO., LTD

C. N. BONSALL, Manager

IN THE LEGISLATURE

Continued from page 1
should be operated by livestock commission merchants on behalf of their clients, that dominion government officials should be informed of violations of the Livestock Act, and that members of livestock exchanges should carry on business only at commission merchants handling live stock on consignment.

On Friday Premier Greenfield made a statement to the effect that in the next session The Election Act would be revised. Following this W. M. Verloc said he had presented a case for a committee report on proportional representation.

Among the acts introduced during the week was one to assist the New West Irrigation, one to amend The Peasants' Merchants Act, one to amend The School Act.

Amendments to The Railway Act introduced by Hon. Mr. Smith provided penalties for certain offences, including trespassing on railway property, walking on railway tracks by others than employees, breaking into liquor shipments, riding on trains with intent to escape payment of fare, and other offences.

A motion to go into committee of supply is now on the order paper in the name of Mr. Bowne.

Amendments to The Produce Merchants Act introduced by Mr. Head will serve to define more clearly the terms produce and produce merchant. The minimum amount of bond for a produce merchant is reduced to \$500, and the minimum license fee to \$5.00.

WEDNESDAY, MARCH 28, 1923

PILGRIMS OF THE NIGHT

Romance, thrills, adventure and human interests—plus an illustration of plot combine to make "Pilgrims of the Night" next weekly offering at the Opera House one of the most absorbing dramas of the season. It was produced by J. L. Freedman for distribution by Associated Producers, Inc., from the famous novel, "Paxtons By" by E. Phillips Oppenheim.

The main romance of the story centres about Christian who believes himself to be the daughter of Marcel, a famous international crook. She arouses the love of Andros, a bung-happy satellite of Marcel's and ...
